

True Position Machining

True Position Machining provides close-tolerance machined parts and assemblies, including secondary operations and finishing.

MACHINING EQUIPMENT:

Bridgeport XT3 CNC Vertical Machining Center, 40" X 24" X 30" working envelope, 3 axis, 12,000 RPM

Supermax-1 CNC Rebel Vertical Machining Center, 17" X 24" X 20" working envelope

Supermax YMC-TC2 CNC Turning Center, up to 8" chuck by 17" long

Bridgeport manual mill and lathe
Miscellaneous manual & shop support equipment

INSPECTION:

Granite plates up to 24" X 36"
Height Gauges up to 24"
Micrometers up to 12"
Bore Gauges
Pin Gauges
Groove Micrometers
Thread gauges
Thread micrometers
